BRIEF SUMMARY

As a recent Computer Science B.E graduate and passionate developer, I seek to leverage my expertise in web and software development, along with a solid foundation in blockchain (Web3) technologies, in an entry-level position. With over 2 years of experience leading projects, I bring strong programming skills, creative problem-solving, and a drive for innovation. I am eager to contribute to dynamic teams, enhance user experiences, and continuously learn new technologies while delivering high-quality solutions in the tech industry.
