BRIEF SUMMARY

I'm a recent Computer Science B.E. graduate and a passionate developer with hands-on experience in web and software development. Over the past 2 years, I've led various projects and built a strong foundation in programming, blockchain (Web3), and AI agents. I enjoy solving real-world problems through tech and love learning new tools along the way. I'm now looking for an entry-level role where I can grow, work with a great team, and build meaningful solutions.
